PROJECTS

LMS (Learning Management System) (Web Application)

Technology :- ReactJs, NodeJs, ExpressJs, MySQL, Sequelize

- A scalable web-based application designed to streamline e-learning processes and enhance user engagement for students and teachers.
- Key Features:
 - Module-Based Curriculum: Organized course content into modules for structured learning and easy navigation.
 - Progress Tracking: Enabled students and teachers to monitor learning progress and performance with real-time updates.
 - Access Control: Implemented user authentication and role-based access for secure and personalized experiences.
 - Dynamic Content Management: Designed a responsive UI to handle interactive and dynamic content seamlessly.
 - Engaging User Experience: Included visually appealing backgrounds and intuitive navigation to boost user engagement.

AWC India (Web Application)

Technology :- NextJs, NodeJs, ExpressJs, MySQL

- Developed a web application for AWC India, a client of Valuda's Tech Park specializing in roofing and waterproofing products.
- Key modules implemented:
 - Product Management: For managing and displaying product catalogs.
 - Blog: For publishing industry insights and updates.
 - Gallery: To showcase product images and projects.
 - Testimonials: For displaying customer feedback.
 - Applications: To manage application-related processes.
 - Settings: For admin configurations and system management.
- Integrated mail services for effective communication and user interaction.

TailorG (Android Application)

Technology :- React Native, Node js, PostgreSql, Express js

- A comprehensive mobile application designed for tailors to streamline their day-to-day operations.
- Key Features:
 - Customer Management: Add and manage customer details efficiently.
 - Order Tracking: Record and track customer orders with ease.
 - Measurement System: Digitally capture and store clothing measurements for precision.
 - Cloth Pattern Library: Maintain a catalog of custom clothing patterns for quick reference.
 - Integrated Khatabook System: Manage customer payment details, outstanding balances, and transaction history within the app.
 - Bank Integration: Enable shop owners to securely add and manage their bank details for seamless financial tracking.
